Metacognition

TRAINING

I Know It → Think I Know It → Not Sure → No Idea

Unconscious Incompetence

Conscious Competence
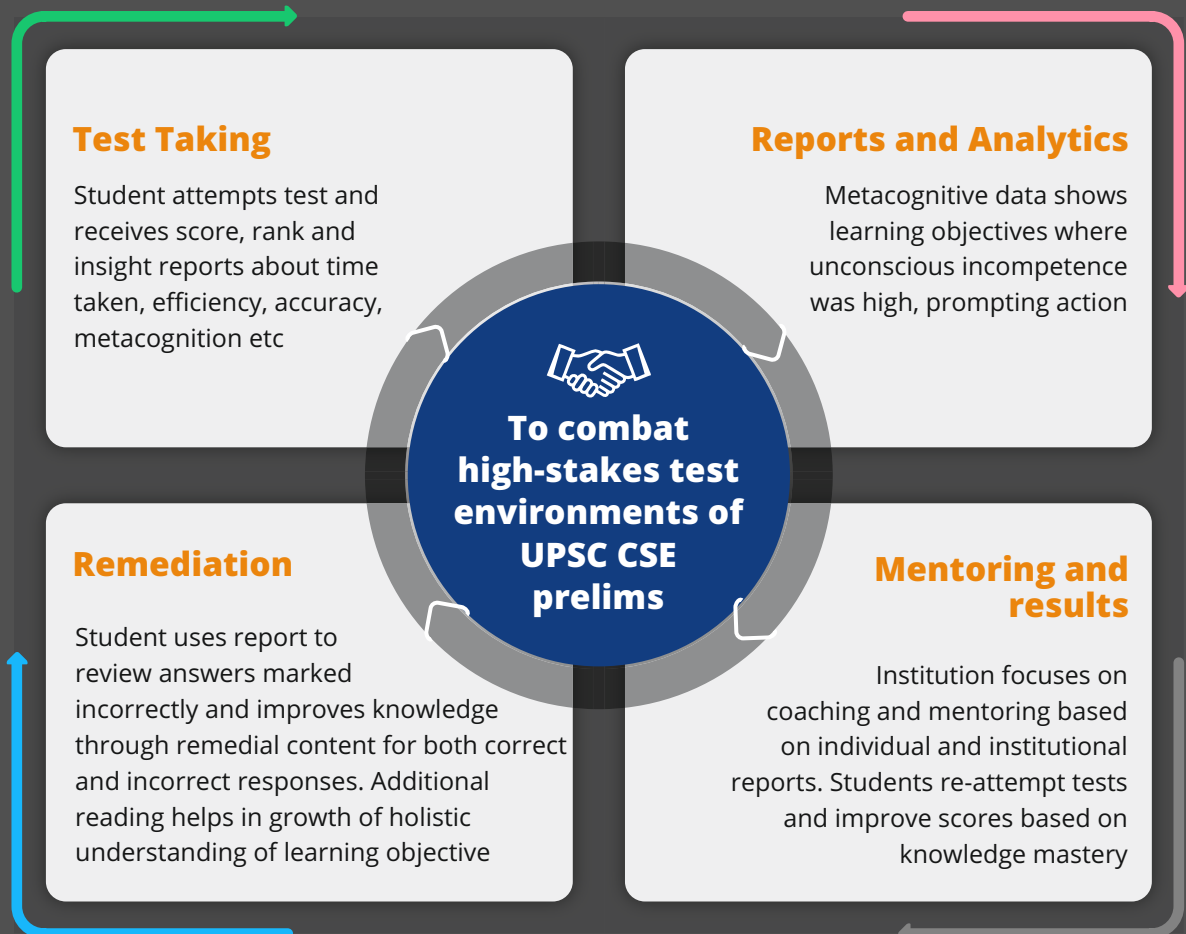

Metacognition is used to uncover hidden misconception in a given learners knowledge.
Our purpose is to help learners move from unconscious incompetence to conscious competence, improving confidence and results, thus bringing value to the institution.

The Science of Test Taking

To combat high-stakes test environments of UPSC CSE prelims

Test Taking

Student attempts test and receives score, rank and insight reports about time taken, efficiency, accuracy, metacognition etc

Reports and Analytics

Metacognitive data shows learning objectives where unconscious incompetence was high, prompting action

Remediation

Student uses report to review answers marked incorrectly and improves knowledge through remedial content for both correct and incorrect responses. Additional reading helps in growth of holistic understanding of learning objective

Mentoring and results

Institution focuses on coaching and mentoring based on individual and institutional reports. Students re-attempt tests and improve scores based on knowledge mastery

Features

Over 4000 fresh questions across 39 test papers

- Developed by eminent faculty
- Significant mapping of questions with prelim examinations
- Test papers available in English & Hindi

Improves confidence Metacognitive tagging

- Students identify competence at learning objective level
- Alerts against false notion of confidence
- Trains students to avoid negative marking, improving success rate
- Remedial content improves knowledge mastery & holistic learning

Report gallery

- Progress and score reports available for students
- Instructors can see at-risk students & difficult learning objectives.
- Configurable institutional reports help in customising learning plans for improved success rate

Benefits of Association

EXCELLENCE
Improves Conscious and Unconscious Competence through regular test taking

GROWTH
Increase student participation and attract growth

INCLUSION
Levels playing field for vulnerable communities in online environment and holistic learning

---

Time saved is money earned – channelise focus on preparation & mentoring based on results

Faculty members concentrate on covering learning gaps & learning plan curation

Outsource effort on test paper creation to us

Institutional Partnership Roadmap

MoU
Ensures data safety and privacy

Support & Training
Robust customer support & training on usage and reports

Reports
Standard and customised reporting to help elevate individual and institutional success rates

Deployment
Feasibility checks and configuration with institutional platforms, logo & branding
